

## Spare parts fitting instructions

Part	Upper bag holder
Tools required	Phillips head screwdriver, 8mm spanner
Contents	Upper Bag Holder

1. Unfold the buggy and locate the upper bag holder

2. Using a Phillips head screwdriver and an 8mm screwdriver, carefully undo the screw through the upper bag holder.

3. Retain the screw, nut and sleeve through the frame for assembly with the new parts.

4. Remove and replace the upper bag holder with the new parts. Assemble the sleeve, screw and nut in the reverse order as above.

5. Remove and replace the upper bag holder strap from the old upper bag holder and replace onto the new bag holder.
